## Building Blocks to Breastfeeding-Friendly Child Care

Create a breastfeeding-friendly environment.	Adopt written policies supporting breastfeeding families and employees.
<ul> <li>Breastfeeding mothers are encouraged to breastfeed onsite.</li> <li>Families and employees are provided a non-restroom space to breastfeed.</li> <li>Provide employee training</li> </ul>	<ul> <li>A written policy exists and is communicated for supporting breastfeeding families and employees.</li> <li>Breastfeeding employees are given appropriate break time to pump or</li> </ul>
to support breastfeeding.	breastfeed.
Train all employees on breastfeeding-friendly practices.	Offer breastfeeding resources for families and employees.
Trainings include: benefits of breastfeeding, handling and storing breast milk, creating a breastfeeding supportive environment, policy/procedure development and implementation, and parent engagement and support.	Breastfeeding resources are available for families.  Breastfeeding resources are available for employees.
Implement proper storage, handling and feeding of breast milk.	
Provide refrigerator and freezer space for storage of breast milk.	
Breastfeeding families are instructed on how to properly label and store breast milk.	
An individual feeding plan exists for every infant	t under 18 months.
